**Subject:** RE: Anne - Bin Location questions

Hello all,

As the requested I did send an email out yesterday I needed more time to completed May 5, and May 6.

1. May 5 & may 6 done.
2. D5 double location has been remove to one location.
3. A list parts location will be provide to you desk.
4. Please help me out here those parts has been here from December, and so many smart mechanical / electrical engineer, all intelligent staff from bodyside has been working on it. Still we needed more improvement

I am just an assembly I may have miss for an error for somehow, if you enter the excel and have double location, please kindly let me know I will make it right.

Truly yours,

Anne

**Subject:** RE: Anne - Bin Location questions

Good morning Andy,

As your request I did check May 01, 2020 create location parts and location is corrected.

C3-30-B beside C4-31 it writing down as the same other location as C3-30. Sub assembly location.

I did talk to Andrea she said she will create new number for C4-21.

A copy will provide you as your request.

May 6, 2020 I also add up the number as Andrea requested.

Please consider I am not a person who apply for material lead lands here. You signed the job to asked for helped and I did tried my best, you get what you get, and you don't have to upset about it.

I am apply for electrical/ Mechanical. Please let work what I apply for, this is the right things for you to do.

Kindly regards,

Anne

**Subject:** RE: Anne - Bin Location questions

Anne

Can you please advise on the below queries and how long you need to correct any discrepancies there may be?

For instance (these are examples) I would like you to tell me when these will be verified by yourself.

The point dated May 1<sup>st</sup> will be completed and verified by close of business (1pm) today  
The point dated May 5<sup>th</sup> and May 6<sup>th</sup> will be completed and verified by close of business (1pm) tomorrow?

Etc.  
Etc.

The same for all "double locations" when will these be verified that we have no more double locations and all parts are consolidated 1 part in 1 location. The list then needs to be signed off that ALL items are resolved and we can input a clean list for Guildford to use. Please advise a date when this will be done.

I personally would like to have updates (mail is fine) where we are against the dates you advise are we on plan or not? If not why not? The same being said for tasks completed. It will be myself that answers to the UK, so I need to have confidence that the data and system is correct.

Please advise the dates so we can begin to track for resolution. If you have any questions please feel free to discuss with me.

Thanks  
Andy

**Subject:** Anne - Bin Location questions

Good morning Anne,

Please see the attached photo's of the bin locations that were handed in last week. I am trying to update the master list, and have a few questions regarding them.

List May 1<sup>st</sup> - top of sheet has need locations, but all the parts listed have location. Would you be able to clarify, if these parts need a new location or are these the updated locations?

List May 5<sup>th</sup> and 6<sup>th</sup> - there are partial bin locations, mixed with some complete locations. Not sure, if you are complete with this list, please let me know.

List May 7<sup>th</sup> - there are partial bin locations, and there are parts with the following 'The following parts remove to C5 location', but some of the parts have other locations beside them (example 656489 D5-30-D2).

List May 8<sup>th</sup> - there are partial bin locations, and would you be able to clarify what shelf you put 484397 to 444340.

I did not get the master list with the Hopspare double locations, back from you, last week, you handed it in, and then took it back for correction. Would you be able to hand that in asap.

Would you be able to come and see me, and we can go through them.

Thank you,
